Annual Business Management Event | National EMBA Summit Forum - National Taipei University Session

As AI rapidly reshapes the management and industrial landscape, we need more than just mastery of new tools—we must fundamentally rethink decision-making, leadership, and competitive strategies!

The **"2026 National EMBA Summit Forum" (NTPU Session)** brings together EMBA executive directors, business management academic leaders, and key industry figures. Through diverse professional and practical perspectives, they will share real-world experience and forward-looking insights on global trends, AI development, leadership talent, and industrial transformation.

We cordially invite anyone interested in AI development, management trends, and the future of industry to join us for this rare, cross-university, and cross-disciplinary annual business management event.

Seats are limited. Sign up early to secure your spot!
